## About This Game

Meet Hanzo. He's a ninja. While he was training 'out there' the Pirate Monkey Zombies™ - stupid, ugly, smelly, rotten and disgusting creatures - kidnapped his family. Take control of his awesome blade and aid him in the quest to free them.

You need just a mouse to play. LMB + draw a line to jump, dash, dodge, and slash. RMB to summon powerful Ninjutsu Techniques - super-efficient against the 'rotten'.

### FEATURES:

- Unique mouse only controls
  - Story Mode
  - Challenges Mode
- Endless Arcade: Survival and Gatekeeper Modes
  - Upgradeable Ninjutsu Techniques

Cut, slice, snip, sever, chop, shear and trim hordes of Pirate Monkey Zombies™.

And wear a helmet - you got only one brain!

The interface features a 5x5 grid of light purple squares. On the left side, there is a vertical column of four red squares containing white triangles pointing up, with numbers 1, 2, 3, and 4 inside them. On the right side, there is a vertical column of four blue squares containing white circles, with numbers 1, 2, 3, and 4 inside them. The grid contains several empty squares: (1,2), (1,3), (1,4), (1,5), (2,1), (2,2), (2,3), (2,4), (3,1), (3,2), (3,3), (3,4), (4,1), (4,2), (4,3), (4,4), and (5,1). The top of the interface has a music note icon on the left, the numbers '0' and '9' in the center, and three icons (play, refresh, home) on the right. Below the grid, there is a control bar with a red circle, a blue triangle, and a blue circle, each followed by a dotted line.

. really enjoy the simplicity jus jan along

. I can't believe they'd try to charge \$20 for this ... too easy even though it's glitchy with aim, sword cuts robots and they just drop with no real feeling to it at all. Really depressing actually -- cheaper wave shooters out there. I hate rating a VR game bad because I want more developers to get into it and create content but I returned it even at 50% off. They tried to do another Super Hot but I guess with elements of Robo Recall and kinda failed to reach expectations of either.. not very impressed, graphics suck, censors only seem to work under 10 km WTF is that .....TNG expansion the capt is holding a P.A.D in order to carry out certain functions looks and feels completely stupid not recommended...unless I really missed something good pressed the wrong button and ended up some where really far from where the fun is in the game ...it completely blows chunks, the worst star trek game ever to date ...going to have to do a star trek 3 on it " the search for fun" maybe i just missed something going to keep looking see what happens ...before you buy watch some video's of it you might change your mind about buying it ....i bought it because it was 70% off not sure if that will even make me feel better about buying this crap ....if anyone can direct me to were the fun is in it please do i have allowed comments for just this reason ...thanks!. The puzzles are frustrating

The music is annoying

The nerds laugh are VERY annoying

The first impression is good, but gets really bad so fast. I had fun playing this game though i can understand if some find it lacking because it is. Production was not kind to the development of this game but still they managed to push out something solid.

For example

Environment: while it might be accurate in the grimdark future of the galaxy, I still think theres room for more varied designs and different scenery.

Combat: Easy to grasp and good power behind it but lacking some finer nuances.

Story: meh not bad but not exactly memorable either.

Maybe youve noticed it already from reading this, this game couldve been so much more and I believe theres a great amount of potential in these kinds of games within the Warhammer 40k universe.. Funny, good length, not too difficult and good music. Really enjoyable for a quick game :poopsmile:. I greatly enjoyed the lonely, melancholy atmosphere of this Water Planet, and my discovered companion, a friendly aloof jellyfish. I travel many worlds in VR, and this was one of my favorite. Also great soundtrack.

. This is a good game so far I like it from what little time I played on it and plan on playing more. a very fun and addictive game, but a word of warning it contains the trials evolution/fusion effect, that means rage by constantly trying to improve your times or completing some levels, overall 10/10 keep up the good work. PLEASE Developers make more stages. Tha's the main thing preventing me from having fun and purchasing a Character Model pack. You need more Creative stages. Not just boring rectangle shaped stages. Stages that are different shapes, have different pros and cons, stages that require different strategies. It's really boring playing the same few stages over and over. That was the main problem with Bomberman, it was boring. And that's why bomberman died off. There was no strategy other than avoiding "plus shaped" bomb splash damage on a large rectangular shaped level.. You want a visual novel that has a ton of lore? Do you like a visual novel that has gameplay elements? Do you like that gameplay to be technical and complicated, yet managable and still enjoyable? You've found the right one.

Take a story that revolves around magical learning and slice-of-life fantasy, then blend it with some time-management and an intriguing dice-rolling mechanic, and you get Littlewitch Romanesque. And is it ever astoundingly good! Nearly every scene between lessons contains lore, and there is enough depth to the worldbuilding within the story to give you a lot for your imagination to explore.

The plot, despite being an eroge (with adult scenes removed on Steam), is actually surprisingly not that perverted. If gratuitous sex is a turn-off in other visual novels, you'll be delighted by how focused the plot is on revealing its world and developing its huge amount of characters. Sure, there's some fan-service (as one will always expect due to the genre), but it's almost always either comedic or sentimental, and rarely feels out of place.

And don't even get me started on the artwork. HOLY CRAP, is this some absolutely stunning art. You can see the love and detail in every single scene.

If you're looking for something story-rich, with fantastic artwork, just the right amount of challenge, and a little less perversion than the status quo, Littlewitch is the VN for you.. This was a good game but replaying it again I forgot about how bad the randomness of the bullet spread was. I did have a lot of fun playing it with friends too bad other games came out and this never took off with us as I thought it would. I am having fun again replaying the single player missions again though. Absolutely good game. Pandemonium.

lol by the name you know it's a trash game. it's just trash, really leave it alone. 1/10
